

The Right People, The Right Equipment.

Delta Railroad Services is recognized as a premier railroad construction and equipment rental company serving the growing railroad infrastructure needs in the U.S. and throughout North America.

ABOUT US

Our vision is to continue the legacy of excellence in client services, a tradition that started with our founder, Cosmo Anthony Laurello, who founded the company in 1957.

From railroad construction expertise to top-of-the-line equipment rentals, **Delta Railroad Services** (DRS) is dedicated to delivering a seamless end-to-end customer experience, unique to the needs of each project in focus.

OUR VALUES

- One Team, United
- Integrity Without Compromise
- Commitment to Safety
- Family Values

Delta Railroad Services is a proud member of the Salcef Group.

Serving the market for over 70 years, Salcef Group is a global leading player providing the railway industry with a comprehensive ecosystem of products and services.

We provide services for Industry, Short Line Railroads, Class I Railroads, Commuter and Passenger Transit lines and Metro Trolley Systems.

- From industrial track to passenger rail, DRS can build it to exceed your expectations.
- Whether we are laying track through rural landscape or traversing dense city streets, rebuilding old track or constructing new, the DRS teammates are experts at installing and monitoring even the most complex rail systems.
- Delta Railroad Services uses state of the art track construction equipment run by highly trained operators with many years of experience.
- Our operators regularly attend equipment manufacturers' training sessions to learn how to operate new or upgraded equipment.

“Excellence isn’t just who we are, it’s what we do — and it starts with a clear focus on ensuring that the best interests of our loyal customers are met.

Our business philosophy centers around long term relationships, one machine, and one customer at a time.”

Linda Laurello
CEO of **Delta Railroad Services**
